

ARE YOU CONCERNED ABOUT ANAL CANCER?

THE RATE OF ANAL CANCER IS RISING IN THE US.

ANAL HEALTH CARE IS AN IMPORTANT ASPECT OF YOUR HEALTH, **ESPECIALLY FOR PEOPLE LIVING WITH HIV.**

MANY DOCTORS RECOMMEND DOING AN ANAL PAP SMEAR TO LOOK FOR ABNORMAL CELLS. THIS SIMPLE SCREENING IS IMPORTANT FOR BOTH MEN AND WOMEN.

HAWAII CENTER FOR AIDS IS PARTICIPATING IN A STUDY THAT IS LOOKING AT TESTS THAT CAN BE DONE TOGETHER WITH THE ANAL PAP SMEAR TO IDENTIFY ABNORMAL ANAL CELLS.
